We offer for sale this BEAUTIFUL DETACHED VILLA & SUMMER HOUSE, which consists of a total of six bedrooms and four bedrooms and has an internal build size of 330m2. The plot is enclosed and is 1,400m2, which provides you with privacy as well as security, plus a double garage. As you walk up and through the main entrance, you have steps up to an enclosed glazed terrace which then provides you access to the villa. As you enter the main property, you walk into a large rectangular living room which sets the scene for what this property truly offers you! There is a fireplace to your left of the living area and at the other end there is a stairway that takes you up to the first floor. Immediately to your left you have the first of the bedrooms, which is a good size and has fitted wardrobes plus the benefit of your own private en-suite shower room, as you come back and walk past the elegant fireplace you have a small hallway that provides access to the family bathroom and then the next bedroom with fitted wardrobes, this is then followed by the third bedroom, which the current owners have made into an office, but can easily put back to its former use as a bedroom. As you walk back to the living area and further down you come into what we feel is a beautiful relaxing area, with some amazing views over the private pool and towards the Summer House, walking further round you have a good size kitchen with a storeroom plus a utility room providing ample room for cooking. Coming out of the kitchen you then have the stairway that takes you up to the first floor, where you have another bedroom which is a decent size and has fitted wardrobes and access out to an upper terrace/solarium. Moving downstairs and out of the main house, there is an outer stairway that takes you down to a unique Man Cave/Bar, with seating and a bar at the far end, this is followed by a toilet and then another bedroom to your right with fitted wardrobes and a shower, lastly on this level you have a traditional wooden sauna, what more can I say, apart from if you think this is it, you are mistaken. Walking up and outside, this where you are taken to a new level of comfortability and luxury, you have a double garage to your right, with ample space for two cars, this is followed by a gorgeous pool which is 18m by 5m, then the gardens, that wrap around the walls providing some beautiful planting and colour throughout the year.
