Newly restored chalet with 30,000 m² plot of land located in the rural area of Jumilla, just a 5-minute drive from the town. The property is easily accessible via a short dirt road and is situated in a tranquil and picturesque setting, surrounded by a few houses in the neighbourhood. For a better idea, take a look at the video we have made. On the land, there is a restored little house measuring 30m², with 3 empty rooms. While it is not currently connected to electricity, the grid is available at the edge of the parcel. Additionally, the property features a well that could be restored for water consumption. This parcel is potentially buildable and includes an orchard of healthy olive trees, yielding an average production of 6 tons of olives per year. The combination of olive production, a great location, and a low price makes this an excellent opportunity for investment or the construction of a dream home.
